Danny Peary : Cult Movies: The Classics, the Sleepers, the Weird, and the Wonderful before purchasing it in order to gage whether or not it would be worth my time, and all praised Cult Movies: The Classics, the Sleepers, the Weird, and the Wonderful:

0 of 0 people found the following review helpful. Easily one of the best books ever written about moviesBy Kevin NessmanEasily one of the best books ever written about movies. Analysis and criticism as strong as anything written by Ebert or Kael. Many of the films discussed are well-known, but most are obscure. No matter what the film, however, Mr. Peary's insights make you want to see them again, or in many cases, for the first time. Particular highlight is his analysis of 2001: A Space Odyssey. His interpretation of the Kubrick classic is more illuminating and convincing than any I've seen in the past five decades. The two companion volumes are just as strong. If it were available for Kindle, I would buy it immediately for use as a reference. As it is, I purchased used copies of all three and am very glad that I did.0 of 0 people found the following review helpful. Two thumbs up!By EssentiallyBlondeGave as a gift to an old friend, who, loves all cinema that is non mainstream and campy.He really enjoyed this book.3 of 3 people found the following review helpful. A cult book for cult moviesBy C. LahaieA complete reference for fans of cult movies : insightful comments, photos and, sometimes, humour makes its consultation easy and fascinating. Too bad the edition is a bit old (1982), so the paper has changed colour a bit. But still an important consultation book to have for any film buff.Thanks !

Danny Peary is a very insightful critic. His take on these classic cult films (if that isn't some kind of oxymoron) will make you rethink many of your old (or if these are new to you, soon-to-be) favorites. Every film profiled in this book is worthy of seeking out and viewing. They are all destined to make the National Film Registry - well, maybe not all of them, well, maybe some of them, well, maybe a few of them.
