Clever chapter headings (loved "Waste Management" the chapters that contained 3-yr-old quotes...so funny!) Dr. Jay's love for his life's work the kids families he has come to know through the years shines throughout. A positive, laugh outloud tribute to the innocence and frankness of children. Loved it!0 of 0 people found the following review helpful. Laughter is always the best medicine!By Patricia MayThis book is funny for all ages. Parents, grandparents and older siblings will enjoy this collection of hilariously funny quips that Dr. Rabinowitz has collected over many years of being a pediatrician. A great gift for the young at heart and a nice cocktail table addition for family and friends. As Art Linkletter said "kids say the darndest things", and this pediatrician has done a great job of collecting those quote and publishing them in his book.0 of 0 people found the following review helpful. Out of the mouths of babes!By Debra FineCute Kidbits: Funny Conversations Kids Share With Their Pediatrician Laugh out loud book! Author, Dr. Jay Rabinowitz, shares his patients (who are kids) quotes. Every parent, grand parent and family member along with all health care providers should buy this book for themselves or as the perfect holiday gift. I loved it!

For over 30 years, Dr. Rabinowitz has been listening to children tell him all kinds of fascinating thoughts. Many were so hilarious that he started to write them down, as well as send them to his patient's families in emails and newsletters. The response was so great that he decided to publish this book of some of his favorite quotes. Inside you will read some excerpts of what children of all ages say when talking to their pediatrician, whether these are embarrassing, illogical, funny, or just plain cute.
