Be patient with these cards and give them a chance.By Cathie CI have to admit when I first received these cards, I did not immediately take to them. But after having them for a while and using them correctly, these have become one of my favorite decks

to use. I realized that I was actually using them incorrectly. I was trying to use them for past/present/future readings and was getting really crazy results. Then I realized these should be used for daily divination and only for one card readings (at least that's how they work best for me). I also needed to learn to ask my questions properly. This is something I have always struggled with and now with practice and online teachings, I have finally learned "how" to ask my questions and wow what amazing answers and guidance I am getting from them. The messages are so deep and really cut to the heart of the matter. So I would say be prepared to hear the brutal truth with these cards. They really do give you honest, yet loving advice. Advice akin to what your mother would give you. I absolutely love these beautiful, inspirational cards. Another winner from Doreen. 5 of 5 people found the following review helpful. A majestic Reality beyond what we imagine now...By Google Eyes I loved reading this little book. it's small but chocked-full of information ~fantastic imagery of how us Light-Workers variously become incarnated. Get into the mind-frame of a child, with hope, faith, and fear -- let your imagination go ~Be open to All Possibilities, and you'll probably delight in this esoteric treasure as I did. I've watched some of Doreen Virtue's Youtube vids I like her...I've read a few of her other books in fact, THIS one, before, but I wanted the info for my library She was expressly recommended by a psychic I went to ~ who dared to tell me I was elemental (appreciated the outdoors/grew up outside alot) AND Starseed! I DID NOT KNOW WHAT SHE WAS TALKING ABOUT!! It took about a year until I was able just to open up, and understand that different people have different ways of interpreting describing "REALITY". I give Doreen a LOT of credit for having the guts to put hers OUT THERE -- And she's *very successful in doing so (+ QUITE a prolific writer) A Light Worker, or EARTH ANGEL is (pg1) "a person who incarnated for the express purpose of helping the world be a better place." Giving her unique, but session-proved outlook (she used to be an esoteric psychotherapist--PhD in counseling psychology)--including also experienced by the famous past-life regressionist (p2-3) "All souls originate from the same Divine source... "the inside of everyone is the same: a beautiful, pristine spark of Divine light. However, as a lightworker, your spark of light may have spent time in heavenly realms far from earth... Not everyone is an Earth Angel... God called in the biggest and brightest sparks of light for the transition to the New Age of Peace." Doreen's ideas have spread, and there are many who share her views/similar views... And the book is full of anecdotes/opinions from various of her workshop attendees/website/patients. You might be an Earth Angel: Incarnated Angel, Elemental, Starperson, Wise One, or Merperson, Leprechaun, Knight Paladin (p4) I know this sounds whimsical, but if you keep in mind the great variation in human minds, you can understand that each of "figures it all out" in our own unique way! And it was fun/enjoyable to step into Doreen's (loving) world (of hope/encouragement), and see if I fit a character, which many of her followers relate to... For me, personally, I resonated with "Wise Ones" ~ "reincarnated wizards, High-Priestesses, Witches, Sorcerers and Sorceresses" (p10) ~ maybe it's just wishful thinking... but I related to descriptions (by Doreen AND other Wise Ones), such as: relates to Lord of the Rings Harry Potter; intense interest in/devotion to astrology (since I was age 13!); oval face, large eyes... far-away stare of someone who sees beyond the physical universe, long hair; haunting/penetrating eyes-- "no point in pretending/lying to wise Ones, b/c truth is apparent to them" (p115); eccentric/mysterious ~ so following along this line, previous to this incarnation, I was happily enjoying retirement in the Afterlife, after many many many earth incarnations, where I "learned how to channel [my] power into miraculous healings and manifestations" ~ affecting the weather/levitation/telekinesis etc -- an "extremely powerful well-trained magician" ! That sounds pretty good to me (is there a grown-up Hogwarts?) As Doreen mentions herself, her book is akin to astrology texts where you look up "aspects" of yourself, etc, and hear descriptions that may or may not resonate... The fun is in the imaginative, and fairytale, and archetypal imageries made real. LOVE is a Most important quality of ALL Lightworkers/Earth Angels -- WE ARE ALL HERE FOR LOVE!-- and Doreen's message is ultimately one of inspiration, hope, a majestic universe/Reality (WAY) beyond what (many of us) we imagine now-- So, let your own imagination go, enjoy a meander into the charming world of special Earth Angels ~ which one do you think YOU are ?! Kudos to you, Doreen Virtue ~ you deserve your success for standing up bravely sharing your uplifting messages of love with us... even though you "started to wonder if this topic might be too weird for them to consider" (p15) ~ haha! See, even angels can be down-to-earth! 3 of 3 people found the following review helpful. Nice Deck By Lori BI like this deck. The only reason I'm giving this 4 stars is because I'm having trouble connecting to it. I'll keep trying though.

This 44-card deck offers comforting and uplifting messages, to set a positive and healing tone for the day. It also functions as a divination tool, as you can ask a question and find the message that gives you guidance and answers.
