A Compelling Look Inside the Creative ProcessBy Chris MansonThe script of Tim Robbins' outstanding film includes footnotes that detail some of inner workings of filmmaking: why some scenes don't work, why some scenes are cut, etc. If you love the movie, certainly one of the best of the 1990's, check this one out, and seek out Sister Helen's original "Dead Man Walking" which inspired the movie.0 of 3 people found the following review helpful. well presented but too emotionalBy Anna RueppelTim Robbins presents both points of view. On the one hand he makes us feel sorry for the victims and their families but on the other hand he makes us feel sorry for the murderer himself Matt Poncelet. There is too little action but too much religious stuff in the book. But still it is a very well written book since it makes people think about the death penalty and if there is any sense for killing a murderer. The course of the story was very realistic so you can identify with the characters.

Includes the Academy-Award nominated script, and scene-by-scene notes written exclusively for this edition by Tim Robbins detailing the choices he made during production and post-production. 20 b/w photos.The Newmarket Shooting Script(tm) Series features an attractive 7 x 9 1/4 inch format that includes a facsimile of the film's shooting script, as chosen by the writer and/or director, exclusive notes on the film's production and history, stills, and credits.

This film enobles the craft and art of filmmaking. -- Roger Ebert  
Tim Robbins jolts us out of apathy and acceptance and forces us to think. -- Entertainment  
Tim Robbins's smart and evenhanded screenplay is a mesmerizing 'anatomy of an execution.' Never didactic, Robbins makes us see the agonies for all concerned and encounters the horrors this process puts on all. -- Hollywood Reporter
