Georges Sadoul, the author, has two different books; "Dictionary of Films" and "Dictionary of Filmmakers". You chose a wrong title name for the book (on the web, purchase confirmation email and attached mailed receipt , as well).I was watching for the other book, "Dictionary of Films". Thanks for wasting my time and money.5 of 5 people found the following review helpful. Forget Leonard Maltin! Remember Georges Sadoul!By A CustomerGeorges Sadoul is the father of film critics. Here he collects the classics of cinema, with utter sensitivity and complete knowledge. If you have ever felt lost in the video store, looking for a classic or foreign film, then let Sadoul be your guide. As more and more early and obscure films are released on video, you will find them hard to locate in some Maltin or (blech) Blockbuster guide. This book, alongside the even more informative, Dictionary of Filmmakers, is mandatory for any film connoisseur trying to get a grip of film history

This volume is a compact guide to the worlds most important films. This essential reference provides credits, dates, succinct synopses, and brief critical comments on about 400 films.
