Stephen Teo : Director in Action: Johnnie To and the Hong Kong Action Film before purchasing it in order to gauge whether or not it would be worth my time, and all praised Director in Action: Johnnie To and the Hong Kong Action Film:

The book provides a comprehensive overview of To's career as a director of action films.

With his customary range and depth, Stephen Teo gives us a remarkable study of the action films of Johnnie To. To is one of the finest filmmakers working in the world today, and Teo situates his distinctive achievement within the wider context of Hong Kong politics, culture, and film production. In-depth analyses of To's films gain resonance from Teo's survey of the wider history of Hong Kong and its genre cinema. This, the first book-length study in English of To's work, is very likely to remain the best. It confirms Stephen Teo's stature as one of the foremost historians and critics of Chinese-language filmmaking.
