These crafts are awesome. Everyone is getting homemade presents this year. If you need presents for Christmas, your co-worker's birthday, your weird cousin's second wedding, or the time when your best friend goes through a quarter life crisis and adopts two new rescue dogs, you are in luck. These tried and tested DIY presents are just asking to be handed out for every occasion. I can't even wait to use all my craft store coupons, spend cold winter days locked inside with my glue gun and then experience the look of mediocre surprise when everyone finally sees the masterpieces that I have created thanks to Jocelyn's excellent instruction.9 of 9 people found the following review helpful. Non-crafter loved it!By Heather FordAs someone who has threatened to buy the "The Only Craft I do is beer" pint glass, I liked this book. The crafts were do-able and ones i would consider. The book is also funny (obviously, I suppose given Hughes is a comedian) and oddly inspiring. Also, Mamrie Hart has a great interlude on crafting cocktails. I bought this book because I am a

fan of Hughes, but I would also buy it as a gift. 8 of 8 people found the following review helpful. great gift, too! By Cathyfabulous book!! I am literally all thumbs and I think I can do many if not all of the projects. Great pictures and directions formatted in a funny, humorous dialog. Crafts are applicable to many ages. Love that author and will look for more of her books!!

Doing it yourself always seems so simple. Only 3 steps! Just 5 supplies! Less than 30 minutes! Yeah right. The truth is, craftin' aint easy. But it also doesn't have to be an exasperating lesson in your own clumsiness. Joselyn Hughes knows the struggle. She's lived it. And now, with *DIY, Dammit!*, she offers up foolproof craftables that deliver maximum cute with minimal effort. There are easy-to-follow instructions and realistic shortcuts because waiting for paint to dry is as boring as well, you know. With Joselyn by your side you'll laugh, learn, and end up with handcrafted creations that will impress your friends, family, and strangers you accost on the street. She's already made all the mistakes, so you don't have to. What are you waiting for? *DIY, Dammit!*

Ever wonder who that cool girl at the party is? The one shotgunning a beer and turning it into a bird house? That's Joselyn! This book is exactly like Joselyn. It makes you look cooler than you are just by association. (Grace Helbig, author of the #1 New York Times bestseller *Grace's Guide* and host of *The Grace Helbig Show* on E!) Joselyn is the only person I know who can make DIY projects enjoyable and successful. I never thought crafts could be fun until Joselyn had me queef out puff balls. Really...that happened. (Colleen Ballinger) There is a bad word on this book. (Miranda Sings) comedian and DIY-er Hughes' first book is a find: full of good projects and written in a disarmingly funny, low-key tone. (Publisher's Weekly) Because I have read *DIY Dammit!*, I now giggle, laugh, and shimmy as I work on Artsi Crafts Projects. Thank You Joselyn for saving my Life, increasing my Joys of Artsi Crafts Adventures, and I like your Socks they are cute and nice (see Cover to see Socks). (Flula Borg, DJ, actor, and YouTube personality) This book is for crafters who hate the Pinterest-perfect, overly styled aesthetic common in craft books and on blogs, but who still want to make cool stuff. Novice crafters with an itch to create will gain the most from the tutorials; Hughes fans will appreciate the ribald humor. (Library Journal) I love [Joselyn's] everygirl vibe. She's the crafting bestie you want at your side to laugh when you tape a lame paper moustache above your lip and cry when you hot glue gun your fingers (because dammit, that hurts)! (Julie Dyer, *Try Small Things*) As a silly gal who loves to craft, but lacks patience, time, and attention to detail, Joselyn's book was the perfect fit for me to get my craft on! Quick, easy, funny (and very cool crafts). (Arden Myrin, actress and comedian, *MadTV* and *Chelsea Lately*) This book is not only adorable and hilarious to read, it's USEFUL! The book is filled with easy projects that will actually come out the way the photos depict. The items are easy to find and she even tells you where you can find them! (Bonnie Joy Dewkett, *The Joyfull Organizer*) *Dammit*, this is a fun book. (BookPage)
