Will Garth : Dr. Cyclops before purchasing it in order to gage whether or not it would be worth my time, and all praised Dr. Cyclops:

The story of the 1940 film by Will Garth The strange adventures of Dr. Cyclops, the superscientist, makes a thrilling and amazing horror story. Dr. Bulfinch, noted biologist and his young and pretty assistant, Mary Phillips had travelled thousands of miles to the Peruvian jungle to answer the call of the scientist, Alexander Thorkel. Near the place where

Thorkel carried on his experiments, natives talked fearfully of black magic. But even their weird stories were less strange than the truth. For the hermit scientist had discovered how to reduce people to one sixth their natural size. And he turned Dr. Bulfinch, Phillips and their team into midgets as the world grew suddenly large and frightening.
