Jeff Chacon, Anthony Reynoso : E-Male: Of Mouse and Men before purchasing it in order to gage whether or not it would be worth my time, and all praised E-Male: Of Mouse and Men:

0 of 0 people found the following review helpful. A cult classic for its genre! By Ifelsher@compuserve.com A close friend who I correspond with primarily via "e-mail" sent "E-Male" to me and said " You must read this!! We are Fe-Male!" As a confirmed literature snob (Give me Pynchon or give me death! . . . yes some could argue there is no

difference) I would have tragically overlooked it. Instead . . . I read the book cover to cover - unable to separate myself from it until its conclusion. Rarely have I been so amused and touched by such fresh, honest, direct, unique yet eerily familiar voices. While I grew up in a completely different world from Anthony and Jeff -- I felt an instant connection. This book is a timeless anthem to the Generation "X" pilgrims. While the book is remarkably clever and hilarious at times -- the unwavering focus on the men's friendship and lives remains brilliantly subtle -- and these delicate layers of friendship, marriage, career and maturity must be properly appreciated or the essence of the book is utterly lost. What makes this book particularly precious is that some people just won't "get it". 0 of 1 people found the following review helpful. Entertaining. By Alan Tiger E-Male was an entertaining book about the electronic correspondence of two friends. Having shared the same apartment in the past, two best friends now find themselves states apart. They correspond though witty and honest daily e-mails invoking humorous past incidents and funny narratives. Most of the e-mails are about their horrendous jobs or their acclamation to married life. Most of them are fun and provide a good glimpse into the lives of these two down to earth people. All of the e-mails end with what "rules" and what "sucks" on that particular day, which is often humorous. My only complaint would be the somewhat repetitive nature of their e-mails. All told, it is a fun read. 0 of 1 people found the following review helpful. A MUST-READ book of witty e-mail excerpts.. HILLARIOUS! By A Customer I bought this book to read on a plane trip between Denver and Washington, DC. As I sat reading with headphones on, I drew curious stares from other passengers as my snickers turned to guffaws... I simply could not contain my amusement. It is a fresh and enlightening look into uncensored e-mail conversations between two guys... something that I, a young woman, found uniquely appealing. Reading E-Male was much like listening in on a party-line between these two witty and candid young men, both of whom are extremely likable characters. I loved being a 'fly on the wall' to eavesdrop on Jeff and Anthony!!
