received by my ...By Pat DickeyI loved and laughed with this book when received by my sister back it in the 70's. Had to share with my young co-worker when she was pregnant to share the smiles!

Eggbert was born originally in 1959, and is back with this new edition of the Eggbert books, to help the expectant mother laugh through her pregnancy. Who could be better to help the mom-to-be than this charming, unborn embryo who spends his time pondering the world and cracking jokes about anything that comes to mind. This 2nd edition is a faithful reproduction with all of the original cartoons in a brand new publication. It will keep the expectant Mom laughing all the way from the beginning of her pregnancy right to the big day when her little one enters the world. (A couple of the captions have been only slightly altered to make them a bit more up to date.) With these often hilarious cartoons, we wish all Moms love, joy, fulfillment, and we provide this book again as everlasting proof that humor is the very greatest medicine in the world!
