I'd say your kid should be about 12 or older for these. Adults will be delighted by the depth and detail.1 of 1 people found the following review helpful. we were disappointed in this bookBy mom of boysHonestly, we were disappointed in this book. It is high quality, and the line drawings are very well done, but we were hoping to have more actual "beasts" from the first Fantastic Beasts and Where to Find Them book (the Newt Scamander text). These images are taken from the movie, and there aren't many actual beasts to

color. We would LOVE to see a coloring book that uses the first "Fantastic Beasts" book as its inspiration, maybe even including some of the descriptions from the book alongside the images. I wish I had done a little more research before purchasing this book. 3 of 3 people found the following review helpful. Fantastic Beasts and where to find Them book for ColoristsBy CraftylinI like how you include pics of some of the content. It gives me some ideas of where I want to go in regards to my coloring choices. Can't wait to see the movie. My daughter works part-time at a theater and said it was good.
