He's a boy so farts at the best thing in the world right haha. My husband and I sat on the couch playing with this and laughing so hard! Can't wait to see how my son giggles when he gets this1 of 1 people found the following review helpful. Farts foreverBy handy50322What a great book for my grandson. I laughed for hours. Alright I am easily entertained.2 of 2 people found the following review helpful. Great gift for adults and kidsBy rhody86I originally bought this as a gift for my adult nephew - I don't know if he or all the kids loved it more. This is a book that has a page a two for each country with an associated fart. The reading sections are funny and engaging for kids and adults. The kids all know the farts by country, so for them it is about as off color as they get. The great part is, all the kids wanted to be part of the reading. The older kids would read a page

and let the younger kids push the button for each country. Great book.

What is proper English etiquette for a tea room emission? Can a Swiss fart be so loud that it generates an echo? If a meditating Buddhist passes gas, does it exist? The answers to such pressing questions are answered in this hilarious soon-to-be international best seller. Ingeniously packaged with a sound unit to convey the nuances of global flatulence, *Farts Around the World* is the ideal gift for those who like to travel with a smile.
