Social commentary + F Bombs FTWBy A*NSomewhere in this meme-saturated online world lives 140 characters full of smart, jaded, sarcastic, Ernest Hemingway-esque masculinity; a world in which each quote digs deep into The Captain's reality: clueless sheeple-girls named Ashley wearing all black and carrying huge purses; legit dating advice from a man who makes wearing a scowl and a nautical cap not just acceptable but compelling; gleaning life goals from the hardened visage of garden gnomes; and enough cringe worthy yet accurate insights to leave everyone from joggers, to couples, to the PC-police, to Marilyn Monroe die-hards all deeply offended. Or turned on. Or both. That world is here, now, in book form.The Captain does not disappoint with Feel Free to Quote Me. If this book doesn't make you smile from recognition (or regret) then you really ought to consider logging off Facebook and checking out your local dive bar and/or bookstore. Dope book, Captain.0 of 0 people found the following review helpful. Best decision ever! Constant laughterBy NeeksIf you are sarcastic and have a sense of humor (even a twisted sense of humor), this book is definitely for you. Even if you don't have a sense of humor, I promise this will give you a laugh. This book has turned some of my s***tiest days and frowns into smiles. The Captain puts all the thoughts that run through our minds into a book. I literally leave it on my

coffee table and everyone that comes over loves it! I promise you won't regret buying it. If you want to laugh, pick up a copy! 1 of 1 people found the following review helpful. Musings of a beautiful mind By Customer There is so much to love about this book! Laugh out loud funny, snarky, and balls to the wall honest You just can't go wrong with the Captain! Grab yourself a copy of this beautiful bearded man's book; hell buy one for your best friend too, she needs a laugh right now. Then you can spend hours reminiscing at this book and save your friendship from the boring "he doesn't understand me" bulls*** you are experiencing already. Buy the book already, what are you waiting for? Oh come on, if your feeling generous you can buy your boyfriend a copy too, with less than 140 characters per page he might actually finish this book (come on, we both know you aren't dating him for his brain)!

Satirical wit, unapologetic observation, and relentless tough love this book is exactly what it claims to be: commentary, commas, and cursing. With topics ranging from fake gluten allergies, to the practice of safe sex, and dogs being, well, way better than cats, it's ideal for awkward first dates, late nights, and dinners with friends. (Oh, and did we mention it contains a ton of F-words?)
