**Joanna Paul : Film and the Classical Epic Tradition (Classical Presences)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Film and the Classical Epic Tradition (Classical Presences):

Why is it that some films are called epics? Audiences know that such films will be large-scale, spectacular productions, but does the term have deeper cultural significance? In antiquity, epic was a prestigious genre whose

stories ranged from the Trojan War to the founding of Rome, and dealt with important themes including heroism, the gods, military prowess, and spectacle. In *Film and the Classical Epic Tradition*, Joanna Paul explores the relationship between films set in the ancient world and the classical epic tradition, arguing that there is a meaningful connection between the literary and cinematic genres. This relationship is particularly apparent in films which adapt classical epic texts for the screen, such as *Ulysses*, *Troy*, *O Brother Where Art Thou*, and *Jason and the Argonauts*. Beginning with an assessment of the films, Paul discusses a variety of themes, such as heroism and kleos, the depiction of the gods, and narrative structure. She then considers a series of case-studies of Hollywood historical epics which further demonstrate the ways in which cinema engages with the themes of classical epic. The relationship between *Gladiator* and *The Fall of the Roman Empire* demonstrates the importance of tradition, while the archetypal epic themes of heroism and spectacle are explored through, respectively, *Spartacus* and *Ben-Hur*. The concluding chapters look at common tropes surrounding epic, especially focusing on the performance of epic in the ancient and modern worlds, its perceived social role, and the widespread parody of epic in both literature and cinema. Through this careful consideration of how epic can manifest itself in different periods and cultures, we learn how cinema makes a powerful claim to be a modern vehicle for a very ancient tradition.

"*Film and the Classical Epic Tradition* ranges widely, but remains a coherent, well-organized read. The argumentation is careful, the editing is excellent, and the writing clear. All in all, this book is an important asset for teaching and scholarship."--Sen Easton, *Classical Journal*

About the Author: Joanna Paul is a Lecturer in Classical Studies at The Open University. Her main research interests are in cinematic receptions of antiquity, but she also works on other areas of classical reception studies, and has published on a range of topics, including receptions of Pompeii and the history of Latin language pedagogy.
