3 of 3 people found the following review helpful. Excellent Book for NovicesBy J. HackThis is the third book in the ACBL Series by Audrey Grant. The Club Series is on bidding and the Spade Series is on Play. This books assumes that you know bidding at least equal to the first two books. This book is not easy. It takes some thinking and study. It is a thorough discussion of standard leads, signals and defensive play. Anyone who is weak in these methods can learn from this book. It does not include other signals such as Laventhal and upside down discards. To learn about these you need to get Kit Woolsley's fine book on Modern Defensive Signals. Many more advanced books on defense are available including books by Root and Kantar but this book does a great job explaining defensive philosophy to novices.

Fantastic BOOK!
