BlackflyPublishing : Hearthstone Deck Journal before purchasing it in order to gage whether or not it would be worth my time, and all praised Hearthstone Deck Journal:

It just takes a couple of minutes to write down the decks, and I don't have to worry about some app or website discontinuing support for deck saving. It's easy to flip through and find old decks. There is no longer the spelling error another reviewer mentioned.1 of 1 people found the following review helpful. Glaring spelling errorBy Rudy FanI was going to buy this for a Christmas gift, but after looking inside the book, I was shocked to find that 'Quantity' is spelled 'Quanity' at the top of the pages.

No editor caught this before publishing? Maybe the actual book received will have been fixed. Who knows. I could not find BlackFly Publishing via a google search or else I would have written to them about it. Sorry to have to write a negative review, but I did want to warn unsuspecting buyers.

Play Hearthstone? Like to experiment with making decks but don't have enough slots? Use this to keep records of your decklists while making different ones so you know how to remake one that was working the best.
