It's just what she wanted! 2 of 2 people found the following review helpful. pretty good By L. Moore These pieces are a lot of fun to play though not all of them transfer well to piano, like We're all in This Together, or Getcha Head in the Game, but this is to be expected. However, when played against the original recordings it is evident that this music has been somewhat watered down. There are a few missing chords and such. The melody line is also written right into the accompaniment part, so if you are looking to play and

sing along, you will have to use your judgment to pull out the melody notes so you can sing solo. Even with these drawbacks I thoroughly enjoy playing from this book and would recommend it to any HSM fan. 0 of 0 people found the following review helpful. as described By Customer as described
