I was testing new markers on it, and at one point colored over the same spot repeatedly, only to find that on the other side you could barely tell I'd colored it at all--it wasn't even close to bleeding. There are some more simple designs, and some very intricate designs. This book is small, but that's what makes it great as a travel book.0 of 0 people found the following review helpful. Good for travelBy CustomerI was looking forward to this book at Christmas. It was a great size for traveling - fits in your purse. However, there weren't a great deal of Christmasy type pictures. An ornament or two and then some holly sprigs, but not Christmas trees or wreaths. I preferred other coloring books more.0 of 0 people found the following review helpful. Good beginner bookBy Irene FootI am delighted with this purchase. I spend happy hours with it enjoying the process of color, design, experimentation with shading.
