Brian Clegg : How Many Moons Does the Earth Have?: The Ultimate Science Quiz Book before purchasing it in order to gage whether or not it would be worth my time, and all praised How Many Moons Does the Earth Have?: The Ultimate Science Quiz Book:

1 of 1 people found the following review helpful. I love this sort of bookBy David T. McCarthyI love this sort of book, so I went out of my way to buy it. Very disappointed. From the format to the amount of information...just not

worth it.

Why did Uuq become FI? Why is the sky blue? Why is the sky black? What is spaghettification? There's a problem with the typical pub quiz. It always features far too much sport, 1980s pop and celebrity gossip and not nearly enough science. How Many Moons Does the Earth Have? is the ultimate solution. Test your knowledge to the limit with a sizzling collection of brain-stretching, science-based questions in two eight-round quizzes. Turn the page to get the answer immediately and as each answer page explores the subject in more depth, this is the only quiz that's just as entertaining to read from beginning to end as it is to play competitively. Where was the Big Bang? What links the elephant Tusko and Timothy Leary? What is the significance of 6EQUJ5? Science explainer extraordinaire Brian Clegg tells all . . .

'A fascinating read' * BBC Focus * 'An enjoyable challenge. Even the most science-literate may well be left scratching their heads!' * How it Works * 'Whether you're a quiz aficionado or prefer to sit down to read by yourself, this book is great to dip in and out of and maybe you'll learn a little something along the way.' * Chemistry World * 'Brian Clegg has written this distinctly addictive book for anyone who has wondered why there were not more science questions in the local pub quiz.' * Laboratory News * About the Author Science writer Brian Clegg studied physics at Cambridge and specializes in making the strangest aspects of the universe accessible to the general reader. He is editor of popularscience.co.uk and a Fellow of the Royal Society of Arts, London. He is editor of PopularScience.co.uk and a Fellow of the Royal Society of Arts. His previous books from Icon include *Inflight Science*, *The Universe Inside You*, *Dice World*, *The Quantum Age* and *Introducing Infinity: A Graphic Guide*. He is also the author of, from St Martins Press, *The God Effect* (2009), *Gravity* (2012) and *How to Build a Time Machine* (2013). Clegg lives in Swindon, U.K.
