Bobby Smith : How to Beat the Pro Football Pointsread: A Comprehensive, No-Nonsense Guide to Picking NFL Winners before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Beat the Pro Football Pointsread: A Comprehensive, No-Nonsense Guide to Picking NFL Winners:

1 of 1 people found the following review helpful. Alot of information that is useful but it doesnt hold you by the

handBy Saintsfan1977A lot of information that is useful but it doesn't hold you by the hand. It gives you examples and you have to do the rest. 1 of 3 people found the following review helpful. This book may win you money! By terpman33 This book is definitely full of breakdowns of how to predict points spreads, what advice to ignore, etc. My only problem with this book is that the writer doesn't give definitions of all the initials (ncr, bc, etc.) Other than that, I really like the book!! 1 of 3 people found the following review helpful. Wasted time and money for this book. By dockiem Bettors, before buying this book. Please have a second thought and look for another book. This book is filled with useless non-impact info that is readily available on the web. How did he call himself a "sharp"?!

How to Beat the Pro Football Points Spread will set bettors on a confidence-building path lined with high-priority realities which for decades have flown under the typical football bettor's radar. Smith emphasizes that pure football knowledge must be absorbed, then applied to the world of points spreads. He teaches his readers to look at the game with the bettor's eye instead of the fan's, and explains his theories on reasonable statistical expectations and how to challenge the oddsmakers. He also discusses the implications of coaching styles, stadium locations, and even the weather on each bet made throughout the season. With years of football betting under his belt, Smith has written a key resource for anyone wagering on America's most popular sport.

About the Author Bobby Smith is the editor of Sports Reporter and sportsreporter.com, and chief consultant for Winning Points and winningpoints.com.
