Probably the BEST Pokemon book around! By A Customer I have this book and I must say I loved reading it. I actually took time out from playing video games and watching TV to read this book. You can't

help but smile at the cute jokes scattered in the book. This book has several things other Pokemon books don't have, reviews and tips straight from kids who play Pokemon all the time. If you're looking for a book to buy your kids on Pokemon, look no further. This book also gives reviews on other great games for children and explains in a very unsuspecting manner that children should also help out with chores, read more often and other things. This book has no flaws except a few errors with what Pokemon are found in which game. This is a book no one would regret buying. 1 of 1 people found the following review helpful. Great Tips to help you become a master!!!By A CustomerThis was a great book! It had great tips on the Red and Blue versions! (Since this book was made at the beginning of the Pokemon phenomenon it'll be mostly aimed at the Red Blue.) Still, this book is a great buy! It has reviews from kids back when they were among the first to know about Pokemon! I also recommend buying "Pokemon Fever" and "Pokemon Future"-- they are sequels (Pokemon Future unlocks the secrets of the glitch Pokemon Missingno and Glitch City, incase you are interested.)
