Bill DeWees : How to Start and Build a SIX FIGURE Voice Over Business: Set Your VO Career on Fire!
before purchasing it in order to gage whether or not it would be worth my time, and all praised How to Start and Build a SIX FIGURE Voice Over Business: Set Your VO Career on Fire!:

3 of 3 people found the following review helpful. Good readBy M. ReaganIf you are at the very beginning stages of

your Voice Over career, this book will be golden. It is setup to take you by the hand and explain the industry and common misconceptions. I agree that there seems to be a lot of redundancy that can come across as padding the book to make it longer. And still it is a short book, under 150 pages and it will not take long to read. But you will want to keep it for the references given and to compare your marketing techniques to his. I found the latter third of the book more than worth the price of the book for me, some good marketing techniques that I will be starting ASAP. I don't understand the complaints that Bill is always pushing his services. He has a section at the end of the book showing what he offers, but other than that I didn't feel it was bad at all. My biggest complaint is the constant mention of "Six Figure", 26 times when I do a search on my Kindle in a book that is a total of 145 pages. In the internet world we would call this keyword stuffing. 8 of 8 people found the following review helpful. Bill - Tells It Like It Is By Tim I received Bill's book yesterday and didn't put it down until I finished. If you are thinking about being a VO communicator or you are already in the business, This IS The Book for you! It's only 134 pages and it's Bill explaining to you what you need to do, to be successful in the Voice Over Business. It's Not full of technical jargon, it's NOT a get-rich-quick book and there's no fluff. It's any easy step by step business plan that is The Recipe for success. Being new to the industry I had little knowledge about it but, now I know it's not about 'the tip of the iceberg' but what's below it that counts. Bill shows you what he does and all you have to do is dedicate yourself to the plan. Rinse and Repeat. I highly recommend "How to Start and Build a SIX FIGURE Voice Over Business: Set Your VO Career on Fire!" 2 of 2 people found the following review helpful. Bill DeWees is the Real Deal! By Troy W. Hudson I am a professional voice over artist and at the beginning of 2016 decided to get serious about marketing the business side of what I have been doing for the last 4 years. I found Bill DeWees on YouTube searching for help, and discovered a very giving gentleman who has been where I have and is now very successful in the voice over world. He is successful at both voice over and the business side of marketing himself. This book is an amazing guide to help VOA's at any level of experience. Bill teaches you the how's that worked for him and are now working for me.

Everyday, you hear thousands of voices on the radio and TV. Someone had to record that voice track. And guess what? That someone could be YOU! In less than 60 days, you could be making money as a voice over artist. Good money. REAL money! And you know what else? You don't even need to have a great voice. It's all about storytelling and marketing. BOTH of which you'll learn in this book! Bill will reveal a SYSTEM that will catapult you into the world of high paid voice over work. What are you waiting for? The 22 content-packed chapters include: What is Voice Over and How Can YOU Capitalize on it? What Can you earn as a voice over artist? The old voice over model and why you need to understand it The new voice over model: how and why things are different What it takes to succeed in the voice over business Union vs. non union jobs and which choice makes more sense Why being an announcer can kill your VO chances Performance skills you need to make a solid living Office tools every voice over artist must have Setting up your home studio: tricks and techniques Your daily workflow and how to maximize your efforts Tricks of the trade for editing your voice over work Creating a killer demo: your big key to getting more work Designing a website that will generate you a steady flow of business Your marketing philosophy as a voice over artist Marketing strategy for the winning voice over professional Executing your marketing strategy for maximum profit Using your database of clients and prospects effectively Collecting on the money you make: getting clients to pay Setting your voice over rates to maximize your monthly income How to use your customer service as a marketing tool AND, much, much more!
