It would be exceedingly difficult to find a person who would answer no to that question. If you are one of the many people who do, indeed, enjoy large sums of money,

then this book is for you. As soon as I finished reading this book, I took a trip to my local casino and put all the tips and tricks to use and, let me tell ya, this book should be heralded as one of the greatest pieces of literature to ever grace the face of this beautiful planet. With my new-found gambling confidence, I strapped on my dancing shoes and waltzed into the casino like Gene Kelly. Immediately I was swarmed by 39 of the most gorgeous girls I have ever seen. They could not get their hands off of me, and I had not bet a single dollar yet. I sat down at the blackjack table a new man - and won big. So I played again, and again, and again, until I had amassed approximately \$6.9 million dollars in casino chips. The women were swooning, the booze was flowing, and I left that casino and immediately bought 4 Maseratis, because hey, why not? I got home, sold my house, and bought a mansion in South Beach where I currently reside. I never have to work another day in my life. Thank you Mark Multerer and Rudy Stegemoeller for changing my life and providing me with a luxurious lifestyle fit for a king.0 of 0 people found the following review helpful. You might not win a million...By P. Haas...but there a million laughs in this funny, smartly-written book. The title is a little misleading as the authors haven't really written a "how-to" book. It's more of spiritual guide to the gambling experience...spiced up with a lot of observant humor about the entire process. A good gift your Vegas buddies!1 of 2 people found the following review helpful. funnyBy A Customerhumor along the lines of high fidelity. it is a good read.
