**Steve LeDoux : How to Win Lotteries, Sweepstakes, and Contests in the 21st Century** before purchasing it in order to gauge whether or not it would be worth my time, and all praised How to Win Lotteries, Sweepstakes, and Contests in the 21st Century:

common sense, and offers important do's and don'ts to newbies. This is the third "how to" book I have read on winning sweeps, contests, lotteries, etc. and although more of the same tips, there are his points of view and experiences that provide worthy information. Some reviewers objected to his humor, "If you want to win, you have to play" and yet there are some people that think "just wishing" is going to bring home a winner. I found nothing objectionable throughout the book and am glad I selected it to add to my new collection. The books were packaged well and arrived within a couple of days after I placed my order. 0 of 0 people found the following review helpful. ZBy Customer How to Win Lotteries, Sweepstakes, and Contests in the 21st Century wasn't quite what I expected, the content was good enough but I think it could stand to be updated. I was looking for a book that focused more on the internet and entering sweeps and contests and this book just didn't have a whole lot pertaining to that. Over all it wasn't bad, just not what I was looking for.
