Mike Goodman : How To Win before purchasing it in order to gauge whether or not it would be worth my time, and all praised How To Win:

1 of 1 people found the following review helpful. Play Blackjack with Confidence By Curt Murphy Even though

nowadays blackjack is played with multiple decks, it is still worthwhile to read this book. Why? It is written by Mike Goodman who was a pit boss for 30 years and has some very interesting casino stories to tell. It will make you laugh. This paperback will give you tips that are true today. It covers roulette, craps, cards, and other gambling games and is a must read for people who like to see what goes on in the casinos. Very easy read. If there are any one-deck blackjack games in Las Vegas, then you are well informed on how to play by putting as much as the edge in your favor. 0 of 0 people found the following review helpful. Your book will live forever on my shelf By mendel I've read it before many times and it's a great book. I learn something new every time I read it. There are certain things I'm not sure about like hitting a 12 against the dealers 3 or 4 at blackjack but you have to remember this book was written a very very long time ago. I'm not sure if Mike Goodman is even still alive with all that tobacco smoke in the casinos 1 of 1 people found the following review helpful. Dated... By Quizzical1 Does show a lot of common sense on money management and I loved the anecdotal stories he writes about, but the plays / strategies (esp craps) are the std Pass Line and two Come bets all with double odds on all shooters and wait for results - just like the casinos want you to do. I much prefer John Patrick's Craps books to this one.
