Need better clarificationBy Terry BinghamThe title named by seller indicates that it would be all 21 Hungarian Dances that I was buying, as Schirmer puts out a current book that is 1-21. However, my purchase from this seller is only the first 10. Very disappointed.0 of 0 people found the following review

helpful. YIKES. By Stephen T. I love this music, but it's not for the faint of heart (at least if you've been playing for under a year). I keep this in with my other music as something to aspire to, but I suspect I'll be a good deal grayer before I can tackle some of these stretches, leaps, and other finger related acrobatics successfully. It's good to be challenged. 1 of 1 people found the following review helpful. Great! By eugenew We were lucky to find this book and are very thankful to the friend who told us about it. Large and very practical collection to play and enjoy.

(Piano Collection). The Brahms HUNGARIAN DANCES Centennial Edition features the complete dances for piano, books I - IV. This collection replaces the Hungarian Dances, #50481800, which contained partial works only.
