So, I decided to go with my teacher's style in pedalling. Other than that, the pages are easy to turn; it's light and convenient to carry; it has proper notes size; and it's not missing any significant notes as oppesed to the ones for begginers and kids.I'm satisfied with this book only because my teacher will supplement the use of pedalling.1 of 1 people found the following review helpful. MUST PLAYED-MUST HAVEBy blodfonWell it's a cheap, well paged book for pianists and has 4 of the most beautifull pieces of pianoliterature.(PLAY ALL OF THEM !!!!). I prefered this edition because the other one that has both2 series of improptus and some other pieces (Alfred again) is too much money and you get nothingmore than this one here.(Except the improptu op 142,no 2 that is in the other set).1 of 1 people found the following review helpful. music is much harder to play than I thought it would be.
