**Ron Klinger : Improve Your Declarer Play at No-Trumps (Master Bridge Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Improve Your Declarer Play at No-Trumps (Master Bridge Series):

6 of 7 people found the following review helpful. Improve your declarer play at no trumps By tarheelnc1 This booklet typifies what I would call a "fluff" book put together with minimal effort on the part of the writer and a good way to make a quick buck. The booklet does very little teaching and is based almost exclusively on showing completed deals

and then telling you how to play them. This is a method of teaching but for me it left me cold.

Many players feel trepidation when faced with playing a no-trumps contract. In this book Ron Klinger shows you how to approach such contracts without fear. The correct lines and logical thinking are explained clearly and you will not only make your contracts, but also score overtricks as well. This book is about the strategy of succeeding as declarer when you play no-trumps. The first section deals with the approach you should adopt before you even play a card from dummy. Then follow heaps of practical examples, problems for you to solve, deals that arose in major competitions where the very best players did not always find the right answer. Most importantly, the solutions include the logic behind the right play, the clues to locate the missing cards and ideas on how to induce opposition error when you have no legitimate chance for success. In this book, Australian expert Ron Klinger shows you how to come out on top more often. Where you might have felt reluctance when playing no-trumps, you will emerge with a new sense of confidence. No-trumps will no longer hold any fears for you.
