0 of 0 people found the following review helpful. fun arrangements, not quite perfectBy Emily E.The arrangements are in the original key, in most cases, which makes it possible to sing along! However, not all of the arrangements sound like the actual song in all places, and it takes some tinkering to actually replicate my favorites. Still, it's nice that someone did the hard work of writing the sheet music, and it comes in a nice book which stays functionally open on the piano. The selection of songs is great, too.0 of 0 people found the following review helpful.
