Bidding and play engagingly presented for advancing beginnerBy abhirar@gcm.comThe better known Card Play book by the same author with Nico Gardner, can be a bit tedious. In contrast, this book makes a great gift to the advancing beginner. The illustrations are witty, and the text lets you arrive at a rubber table (usually late) as an auction is in progress, to follow the action. By the end of the book the reader is led to advanced play, just enough to titillate. Mollo covers important bidding strategies without the pontification of a Goren, the terseness of a Reese or the razor-edge analysis of a Kelsey, a redeeming quality that makes for a pleasant, instructive and memorable read, whether you are a dyed-in-the-wool 4-card majorite or a Standard American fan.
