**Iron Maiden : Iron Maiden Bass Anthology (Bass Recorded Versions)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Iron Maiden Bass Anthology (Bass Recorded Versions):

0 of 0 people found the following review helpful. So far so good..By MRvinylGUYSo far so good... doesn't seem to be a large selection of Maiden bass tab books out there, so this is what you're gonna be dealing with more than likely. I've watched videos of people doing covers and this book appears to be right there. Did I find anything I disagree with? Yes, one small spot on the intro to the trooper, I found a video with a slightly better alternative fingering (3 note difference, but same note letters)... other than that, basically perfect... again, not much else to choose from: you will be able to play to the record with these transcriptions...0 of 0 people found the following review helpful. Get it now, bass player!By Home SliceDude, this has many great songs up through 2006's "A Matter Of Life And Death" album.Great tabs.10 of 10 people found the following review helpful. Iron Maiden Bass Anthology proves why Steve Harris is one

of the greatsBy xtiangarThe book contains a sampler of some of the most memorable bass playing moments from a man who always has a talent for impressive and inventive bass playing. The bass lines are accurate and as a by-product also provide a good glimpse into the way his playing ties to his songwriting structures (as well as into the songs written by or co-written with others).A very educational book that helps understand what a bass can do within the structure of a song as well as a technical showcase of speed, precision and melodicism.A must buy for any bassist - being an Iron Maiden fan isn't necessary to appreciate the playing but it does make the experience more enjoyable! This book serves as a testament to Steve Harris. It is a showcase as to why he is one of Rock's most talented bassists/songwriters of any genre from any time. A must-have.Up the Irons.

(Bass Recorded Versions). This book of note-for-note Steve Harris bass transcriptions is a must-have for any rock bassist. 20 classics, including: Aces High \* Can I Play with Madness \* Evil That Men Do \* Fear of the Dark \* Iron Maiden \* No Prayer for the Dying \* The Number of the Beast \* Run to the Hills \* Running Free \* The Trooper \* Wrathchild \* and more.
