There are no fingerings or interpretation suggestions in this no-frills approach to Prokofiev's music. Overall, wonderful score.1 of 1 people found the following review helpful. Very good editionBy JenniferIt's a very good edition, in a good price too. If you tried to search it on any other site, it will cost you \$50.1 of 2 people found the following review helpful. Not recommendableBy Ing Hernan VillamilPotential buyers beware: the notes are all there (one hopes!) but they are not clearly readable: the print is evidently very old and somewhat blurred. The paper quality is not what you'd expect from

an Urtext edition. I will keep this edition as a backup while I try to get a much better Henle version (pitty they don't have a complete set). With music this difficult to read and interpret, you need the best printed edition to make it an enjoyable experience, in my view.
