I have many guitar tablature books, this is by far the worst printing job I have seen. at least in my addition unless they have changed their printing methods. 0 of 0 people found the following review helpful. Pink Floyd Tabs By 2madmax This was purchased for my son, a musician who is also an avid Pink Floyd fan. He loves it sys it is easy to read...for him for me it isn't but

I am not a musician. He uses this book to help him figure out some of his favorite songs. It is a pleasure to walk around the house and hear "In the Flesh" coming out of his room. I would recommend this to anyone who knows how to read Tabs in music books. If you can't there still are the chords. 0 of 0 people found the following review helpful. Something for everyone By R. Duck Even if you've never strummed a chord this is a must-have for fans. As an owner of the cassette version of The Wall, I never got to appreciate the album artwork on this scale. I'm a novice, yet several of the songs are very approachable. Plenty of room to grow into the more complex ones as well.
