A brilliant guide book spoilerBy ShadowI absolutely love the game, and as with any game I try not to ever use a guide book for as long as possible so as to uncover the plot myself, without an accidental spoiler. But, as I've wanted to completely conquer this game, in my replayings of it, I did indeed purchase the guidebook to shorten my search times on the scavenger hunt portion of the game. The game is certainly chalk full of secrets, and if for no other reason, you will definitely want to pick this brilliant all color, beautifully illustrated guidebook. Certainly, you will also have the advantage of having a good place to turn if you get stumped while in story mode. Believe me, it will happen.
