I havent played piano in 40 years at 17 I broke my hand , damaged some fingers and was caught up in racing motorcycles . The piano was sold . With these new Casio's that are portable I thought lets try again . I forgot how to read music . Bought these books number 1 and up and they are great . Starting to learn again . Didn't have the timing down for other classical I didn't know but these I know the tunes and when I do not their on You tube .. Even played from these books . So I am progressing and loving my new Casio Piano too . Couldn't be happier and I am actually starting to self read music can play songs like Rocky Top and Blue Suede Shoes . Very pleased . Thanks for the fun lessons and not to mention the other courses out there online with midi using your computer the Casio hooks up too . Really enjoying myself at 601

It has ten songs that she is excited about learning to play. Some songs are easier and some songs are just a little less challenging than regular practice books which makes it ideal for summer. Lots of older songs like Rock Around the Clock, Surfer Girl, The Purple People Eater, and Blue Suede Shoes. She is planning on putting on a performance for her Grandparents.1 of 1 people found the following review helpful. I think for beginners this is a fun way to make piano a bit more interestingBy G. CustomerI think for beginners this is a fun way to make piano a bit more interesting. It wasn't my favorite collection of songs, but most kids recognize them.
