They are challenging and I like that the answers are on the back so if you take a guess and need to check it is easy to do. When you finish a page you just rip it off and the book gets smaller. I ordered two sets so I keep one in the car and one in other convenient locations too. Kay1 of 1 people found the following review helpful. Exercise for your brain.By S. SullivanI got these books to replace a larger sudoku book that I had recently finished. The puzzles range from easy to hard and the answers are on the back of each sheet which is easy to tear and take with you. I do these puzzles at least three times a week and it keeps me occupied while waiting for example at a doctor's office. I've also heard they're good for stimulating your brain.0 of 0 people found the following review helpful. Five StarsBy Kimberly Ortizeverything I needed
