THE BEST GUIDE FOR POKEMON COLOSSEUMBy A CustomerBradygames has had a history of both good and bad books. This book is probably the best of their guides. I have the Limited Edition Guide and it ROCKS. It has more info than any other guide out for this great game. The Nintendo Power Guides don't list every detail and many things are out of order. In this guide, you will see nice maps, great strategies for both walkthroughs and trainer battles, and a great pokedex also. For Limited Edition Guide buyers, you will get an exclusive art book, which really doesn't include anything that you can't see for yourself except for some rare drawings of Miror B. (the head honcho of one of the gangs in Colosseum). The guide is just amazing. If you're gonna get a guide, then you must get this one. Not

even the Prima Guide equals up to this. See what happens when you get rid of the head Prima Pokemon writer (Elizabeth Hollinger)? GREAT BOOK.
