I also have Volume 2- The Complete Pokedex Edition. I like to use these in tandem. If you really want to truly get every Pokmon and every in-game item, I highly suggest you buy both of these. I know you can obtain lots of other items thru other means or devices. I have already done that. I just don't want people to see this and say "You know that you can get other items which aren't in the game, right?" I know. I have an Action Replay. Sad to say, but I don't really care.1 of 1 people found the following review helpful. The guide is the best way to get the most out of the game.By smllchngMy son loves to play Pokemon and says that these official guides are the only way to get the most out of the game. He claims that you can't play it well without it and he loves them. We have all the different books for the different versions and he said it is worth every penny.0 of
