The information on those pages is all information that one can glean from playing the game for 5 min. DO NOT PURCHASE. I am sending this joke back. BUYER BEWARE!0 of 0

Within the first few pages it even tells you how to catch a secret Pikachu! I was a field tester during the beta of Pokmon Go and still learned lots from this book. A lot of the technical aspects of Pokmon Go aren't explained in game, but this book lays them out in an easily understandable way. I highly recommend it!0 of 0 people found the following review helpful. Very good readBy ThreeDaysGrace...ftwI rather enjoyed this particular guide book. It helped me understand what the point of leveling up in Pokmon Go was and how to best gain XP. I loved how easy it was to understand and the cool tips such as how to start the game off with pikachu. This book was awesome, however, I can't give it 5 stars due to a formatting error that made the charts difficult to view on android.
