How to be the very best!By Andrew ForbushI must admit I got caught in the Pokemon Go craze especially since I grew up playing the original game on my console. But i have found the game very confusing since the interface is nothing like the ones I used to play as a kid. Plus, it's been very difficult to find pokemons. This book is a great guide on Pokemon Go on your journey to become "the very best". It explains

the basic gameplay and has very useful tips on collecting items, battling gyms and making your pokemon stronger. All in all, these are some pretty general tips for the starting pokemon master. 2 of 2 people found the following review helpful. Great short handbook for quick reference! By Drew21PAAsh, just wanted to thank you for this book. I am out of the loop on this whole Pokemon stuff, but my 3 year old son is absolutely obsessed with Pokemon. We watch it, well he does, and he is always telling me how super excited he is about Pokemon. In addition, my local town (small rural town) seems to be obsessed with the Pokemon Go obsession. I don't get it. This book helped me to understand the concept of it. I guess I understand the collection side of it - it's a game, I also understand that, but before reading the book I didn't understand the rest of it. I also found it dangerous with how people can be lured when playing this game in public. I will say this, for how short this book is - it's a very effective handbook to the game and what to look for. It won't provide you with groundbreaking things like cheat codes, but it will be a guide on how to play and what to expect. 0 of 0 people found the following review helpful. This guide will help you to master the game. By Marc Recatala. If you want to start playing pokemon go or just want to know more about the game that's changing the world, this guide will help you to master the game! The book covers all the topics that you will need to understand the game, from setting your account to all the objects, pokemon types, attacks, pokestops, gyms, how to fight, etc. At the end the guide gives you some useful tricks like how to farm more xp or how to start with pikachu. In summary, this is a very complete guide that will help you understand the totality of the game.
