**J. Douglas Arnold, J, Douglas Arnold : Pokemon Gold and Silver Japanese Translation Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Gold and Silver Japanese Translation Guide:

0 of 0 people found the following review helpful. The guide was in perfect condition! Very detailed and even teaches you a ...By Denzel C.The guide was in perfect condition! Very detailed and even teaches you a few tips on how to read certain Japanese letters and sayings!7 of 8 people found the following review helpful. Pokmon has hit a New era!By A CustomerI'm a memebr of the UPN (Universal Pokemon Network), and I just purchased this book am I am really Pleased!I know little Japanese, and this book really helped me out. I imported Pokemon G/S last November and have had a really hard time understanding all the situations, but this book is a great help! I can help my friends out when they can't figure out a puzzle, catch a specific Pokemon (i.e Serebii) or battle with the new moves and Pokemon!It's really unforunate that I saw a few errors, but nothings perfect right? Thanks to this book, I now have all 251 Pokemon,

all 16 badges, and so many other items, tricks and various other things. Good Work! 1 of 1 people found the following review helpful. Why get the American game?? By A Customer I imported a Pokemon Gold as fast as I could since there was no way I was going to survive until the end of October just to be able to read when this book does it for you. It explains all the menus, decision points in the game, and battle scenes. That's just about all you need to read in this game anyway. This book totally walks you through the game just like all other books, but I got a little bit too dependant on the book. It's really hard to navigate an RPG like Pokemon in Japanese, and I got lost frequently without the book by my side. It also doesn't tell any real American names for all of these new Pokemon. But either way, for any Pokemon Gold/Silver importers, this is a must to fully enjoy the game- at least until the American Pokemon Gold/Silver comes out.

Can't wait for the American release of Pokemon Gold and Silver? Neither could we! You, too, can play through Pokemon Gold and Silver now with this in-depth guide to the Japanese version. This full color guide includes a complete step-by-step walkthrough that takes you from name entry to the final trainer battle, with exclusive tips and strategies every step of the way. Helpful translations will help you navigate the menus and learn about the storyline. The Monster Index gives you a sneak peek at the 100 new monsters you can catch, along with translations of stats, descriptions and attack lists. Hundreds of pictures and maps of every town and route will help you find your way through the trickiest parts of the game. Exclusive flashcards in the back of the book can be removed and used to teach yourself the most common Japanese words and phrases found in Pokemon video games. Why wait? Play the game everyone is anxiously waiting for... now!
