A must-have for Pokemon fans!By PokemomMy six year old son, Lukas, and four year old daughter, Josie, LOVE this book. They spend hours leafing through this book honing their expertise of Pokemon. They are not really into the Gameboy so much; they prefer looking at the pictures and reading up on the

characters. Lukas, Josie and I go through the book and play many creative games. We pick our favorite Pokemon on each page; we take a tape measure and figure out the Pokemons heights; we list all the Pokemons that are our height, ETC.! It has also expanded my children's vocabulary to include such words as "psychic", "hypnotize", "gust", "leer" and many more!
