No red, blue, yellow, gold or silver. Rather the newer redone versions of these games like Soul silver and leaf green, etc. Although confusing to someone not familiar with the redone versions still a valuable book.Lots of pokemon and lots of tips, just not specific enough for my tastes.David4 of 4 people found the following review helpful. Not what I expected. . .By momof2I didn't know this was only for a Game Boy, so it was useless for a DS.2 of 2 people found the following review helpful. Great Reference BookBy DierdreMy boys love this book, great way to know where to get what in the different games.
