From The Pokmon Company International : Pokemon Mystery Dungeon: Explorers of Sky: Prima Official Game Guide (Prima Official Game Guides: Pokmon) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Mystery Dungeon: Explorers of Sky: Prima Official Game Guide (Prima Official Game Guides: Pokmon):

9 of 9 people found the following review helpful. The Best Prima Guide I've Ever Seen! By Pamela T. I normally tell people to skip Prima guides because they are usually very poorly written, but this guide is a definite exception to that rule! Not only is it a treasure trove of information (much of which was left out in the previous PMD: Time/Darkness guides), but the data tables are actually alphabetized this time! Truly, it's an excellent guide with lots of useful information including dungeon item drops (and rarity), wild Pokemon levels (including listing in the Pokedex ALL dungeons in which each Pokemon is found), beautiful extra artwork (wonder orbs and seed art are scatter throughout the guide), and of course the essentials (like evolution data, storyline, Pokedex, etc.). I don't normally leave glowing reports on guides these days (since the end of the NP guides), but this one surpassed my expectations. If you are looking for a good guide for the PMD Explorers series, this is the one to buy. Trust me, I have them all, and this is by far the best. The only small thing I would point out as akwurd for veteran players is that they alphabetized the Pokedex instead of listing by national Pokedex number. This seperates the evolutions, but makes the guide much easier for a

newer or younger player to use (those who are not as familiar with the national Pokedex numbers). In short, it's a really nice guide, very well written, very informative, and very nicely laid out. My kudos to the staff! (I hope the same team gets assigned to the HeartGold/SoulSilver guide and will apply the same kind of thorough and organized skill to its production.) Signed, Pamela PS: For those who don't know, this is a strategy guide to a video game (specifically "Pokemon Mystery Dungeon Explorers of Sky"), not a storybook. It's intended for those who like to know every detail about the game so they can plan out advanced strategies, catch every Pokemon, and/or find all the items. It's only useful to someone who has the game (and really likes it). It's not really something you could read to your child at bedtime, since it's primarily data tables and charts listing elements of the game. 0 of 0 people found the following review helpful. Great book. Has data on every dungeon and what ... By Robert Juarez Great book. Has data on every dungeon and what type of critters you can expect to encounter in them. Lists the level ranges of the enemies, even tells you if and when advancing past a certain point in a dungeon the enemies will change or level up. Every Pokemon encountered in the game is cataloged and details what moves they can learn, what level the moves can be learned at, their abilities, recruitment rates, and shows where they can be recruited as well since some can only be recruited in very specific areas. Also includes a full walk-through of the main campaign and the post-ending storyline as well as indexes and lists for nearly everything in the game. The layout of some things seems a bit disjointed, for instance Pokemon are all listed alphabetically rather than by their Pokedex number, but all in all this was a great buy. 0 of 0 people found the following review helpful. Five Stars By CesKrr925 helpful

This official, 720-page book has everything you'll need to take on the latest Pokmon Mystery Dungeon game: all aspects are covered so you don't miss a thing! We guide you through the game with our walkthroughs, with explanations of all you need to know to explore the wide variety of dungeons! Includes a detailed Pokmon list covering all the facts about the 490+ Pokmon in this game, including gender, Egg Moves, and IQ Skills! You can soar in the clouds, but eventually you'll need this guide to help you discover all of this extraordinary game! Cover illustration by Ken Sugimori
