Future Press : Pokemon Platinum Official Strategy Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Pokemon Platinum Official Strategy Guide:

Everything you need to know and then some actually! Since I don't have the earlier Pokemon games the National Dex does me no good but who cares, the art is cute! The print quality is good and with care the guide will last too. Which is nice considering the price tag. But it got me out of a few tight spots and I saw a lot of things I missed going through the game on my own so I'll use it when I replay for sure! I also found the guide a little more useful than the online walk throughs and it's nice to have all the info at your fingertips. 0 of 0 people found the following review helpful. A great resource--mostly By Anita R. KeireSome of the

directions were a bit vague. Otherwise it was great. It was even better than I expected because it had a full Pokedex in it. Great for getting through the game. Even though I got stuck at Silen (swallowed version), it's nice to know how many Pokemon he has and what they are. 0 of 0 people found the following review helpful. Excellent book

The book has a couple of wear on it, but that's cool. The book tells you everything you need to know to beat the game and get everything there is in it. Excellent book.
