Eric Mylonas : Pokemon Pokedex Collector's Edition (Prima's Official Pokemon Guide) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Pokedex Collector's Edition (Prima's Official Pokemon Guide):

0 of 2 people found the following review helpful. received in iffy condition By Abbygaili bought this for christams used and soon learned that it would not have the 3D pictures of charmander, bulbasaur, and squirtle. Merely a tiny picture of all the pokemon in no order on the front and back cover. I also received one with a ripped open corner. Don't buy it used. 2 of 4 people found the following review helpful. Not bad. By Kevin C. Morris This is pretty useful for checking out movelists for the various Pokmon. However, the information they give on stats is shaky, and sometimes actually incorrect when you do careful comparison between base stats for each creature. In general, the information is still in the ballpark, but the system they use can sometimes make it difficult to get an accurate comparison between

two creatures without actually going in the game and leveling them up. Also, the book really needs a list of the various Natures and their effects. Overall, it's a nice purchase, though, and the hardcover is a great plus. 5 of 6 people found the following review helpful. Julian Williams review for this pokedex book By A Customer I love this book very much, but I think they should've added three things. One, a description on the pokemon, two, a little bit of information about the trainers and the trainers pokemon, and three, at least a little bit of information on mew, celebi, lugia, and deoxys, because in the pokemon handbooks they have information on them. But still, I find this book very useful and I think it is definitely worth buying.

Gotta catch 'em all? Gotta have this guide! Gigantic Pokdex with complete, up-to-date stats for all 386 Pokmon, including Pokmon FireRed and Pokmon LeafGreen Where to catch 'em in all the latest Pokmon titles, from Pokmon Ruby and Pokmon Sapphire through Pokmon FireRed and Pokmon LeafGreen Must-have mini-walkthroughs for Pokmon Ruby and Pokmon Sapphire, Pokmon FireRed and Pokmon LeafGreen, and Colosseum The best ways to catch, breed, evolve, and trade your Pokmon Interview with Pokmon game developers offers a secret peek inside the world of Pokmon Exclusive poster inside Retrospective on past Pokmon titles Huge appendix featuring detailed info on Moves, HMs and TMs, Berries, and more
