BradyGames : Pokemon ReaderActive: Your First Pokemon (DK Reader: Active!) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon ReaderActive: Your First Pokemon (DK Reader: Active!):

0 of 0 people found the following review helpful. fun to ready!By Zoza fefiCute book for my kids to read they enjoy picking and choosing what happens in the story.1 of 1 people found the following review helpful. Fun bookBy BethlehemMomI bought this for my 5 year old who is a Pokemon super-fan! He loves that you can choose your own adventure and that there are so many different endings.3 of 3 people found the following review helpful. Great for Encouraging ReadingBy Chrissy1018I bought this for my nephew for his seventh birthday. He loves playing the Pokemon games on his DS. He's not a big reader--he'd rather play outside. But because this book is about Pokemon

and has a Choose Your Own Adventure quality to it, he loves reading it on his own. He's read it several times, trying out different choices to see how the story changes. I'd highly recommend this book, particularly if you have a young Pokemon fan who might need a bit of incentive to practice reading skills on his or her own. I've already added the next book in the series to my list for a Christmas present.

A Pokemon reading experience like no other! Kids are in control, making their own decisions to advance the story, capture and train Pokemon, and discover new adventures as they explore the brand new region of Unova! Just like Ash in the animated series, kids can make their own decisions about which Pokemon to capture, what areas to explore, and what Pokemon powers to use while honing their reading skills as well.
