Phillip Marcus : Pokemon Ruby Sapphire Official Trainer's Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Ruby Sapphire Official Trainer's Guide:

0 of 0 people found the following review helpful. Three StarsBy Thomas Gonzalezgot the job done8 of 9 people found the following review helpful. GET NINTENDO OR PRIMA'S GUIDE...'NUFF SAIDBy NOWdude35I have all three Pokemon Ruby Sapphire guides out there - prima's, nintendo's, and (shudders) brady's.Bradygames' strategy guides either are downright awesome or downright bad, and this guide is answer B. This was the first of the three PRS guides that I bought. I went home, played the game with the help of this guide, and without leaving Littleroot Town, went out to EBGames the next day and bought the Prima guide.Bradygames includes a decent walkthrough of the game with detailed info, but that's about it. The guide has a list - just a basic list - of all the Pokemon, but forces you to buy a whole other \$15 book to get info on the other Pokemon. May I note that in both Prima and Nintendo's guides, they include just as full Pokedexes but in the same guide? Yeah, that was a huge downside of the Bradygames' guide. Also, the walkthrough really could have been more detailed now that I think about it. After I compared the three guides,

Nintendo had the best walkthrough, Prima came in second, and guess who came in last. I'm getting tired of listing endless bad things about Brady's Pokemon Ruby Sapphire guide, so I'll just say: BUY NINTENDO OR PRIMA'S GUIDE... 'nuff said! 28 of 31 people found the following review helpful. A Bit Disappointing... By A Customer Since I usually play games with a strategy guide, I decided to get this with Ruby at the local Gamestop. Well, that and it was the only guide they had. Big mistake. If you're looking for a Pokedex with moves and evolution specifics, look elsewhere. If you're looking for hints on making Pokeblocks that actually help, don't go here. Pokemon locations? Only in the most generic sense. Attack descriptions (especially pertaining to contests)? Nope. Breeding info? Uh-uh. It does, however, do an excellent job of telling you which trainer has what critter, and how much \$ you get as a reward. I can't, however, really recommend this guide. Go for Prima's version, or if you can find it, the Official Nintendo Player's Guide.

Catch All the Pokn in Both Games with One Handy Guide from BradyGames!
