Elizabeth Hollinger : Pokemon Snap: Prima's Official Strategy Guide before purchasing it in order to gage whether or not it would be worth my time, and all praised Pokemon Snap: Prima's Official Strategy Guide:

0 of 0 people found the following review helpful. perfectBy stephanieWas exactly what i was looking for. got the game for my 6yr old, and it was perfect to save time when he started asking me questions. Saved me from having to remember the entire game.0 of 0 people found the following review helpful. Okay guideBy Jenny Hthis guide could have used a lot more in the way of tips and tricks, but it is for the most part adequate for getting through the game and finding the hidden gems.0 of 0 people found the following review helpful. very creative.By Maxwell RochetteThe details are so cool, it even includes details that i didn't know or have forgotten about. Totally cool book.

12 Special Shots and 6 Special Signs Includes Adventurer's Journal!

.com So you think you've mastered every possible way to capture Pokmon, do you? Well, think again! You're about to visit Professor Oak's Pokmon-filled island, where the only tool you're allowed to use to capture these little creatures is your trusty camera. That's right, Professor Oak needs you to snap as many photos of wild Pokmon as possible so that he can illustrate his comprehensive Pokmon Report. This guide helps explain how the process works, and it also gives you pointers for taking better (and higher-scoring) pictures. The book contains annotated maps of each area of the island, along with specific tips for getting the various Pokmon to face the camera. You'll find a handy journal toward the end of the book, in which you can keep track of all the Pokmon you've seen to date. The guide also explains the mystery of the six Pokmon Signs, which has been puzzling Professor Oak for some time. --Michael Ryan Your photo safari begins here!
