Reviewed by a 32 year old Dad/Geek/FanPresentation 10/10:It is a DK Publishing book. It stands up to that name. Great pictures, great quality, even if some are direct screenshots from the TV show, it still looks great. First pages have maps, and the huge splash pages convey a sense of awesome to the young ones.Durability 10/10:Aside form the slip cover that is not made to last (has there ever been one?) It stands the test of time. Great manufacturing.Worth mentioning:- The book is what we would call over-sized and kid was amazed.Not shown here but the cover shown is a paper slip case, just trow it away because the actual hardcover is a close up to Pikachu face! Looks awesome from the front and on bookshelf. (Over sized yellow book? Checked!)Verdict: Permanent place in bookshelf!0 of 0 people found the following review helpful. Five StarsBy R. Pokemon visual guideBy TlnobleThis was the best investment so far with the pokemon craze in our house.We

bought this book for my son at his 6th birthday, he is now 7 1/2 and still uses this guide book. He is obsessed with anything pokémon but this book is a great reference guide for most of the characters. Also, the illustrations are fantastic!
